Moderector is a privately owned company which was established in 1974 with offices in Cork, Dublin & Galway.

We specialise in all types of low cost covered areas for the domestic & commercial market.

Moderector has an excellent track record in providing quality and service to a large number of clients. We can install individually designed units in as little as two days, depending on size. Our unique modular system guarantees an efficient, no mess installation by our trained Moderector staff.

On the commercial side, our clients include Aer Rianta, E.S.B., Institutes of Technology, V.E.C.'s, Windsor Motors, Statoil, Super Valu, Dunnes Stores, Eurest, Roankabin, Extraspace, HSE, Government Departments and many more satisfied customers.

#### Surveys

Surveys are free and without obligation but are strongly recommended as our representative can advise on individual requirements.

#### General

The Moderector System is highly adaptable and is guaranteed to withstand winds of 80mph and 15lbs/sq.ft. of snow pressure.

#### Material Specifications

All units comprise of galvanised steel frame, finished in specified colour, with a clear polycarbonate roof sheeting of various types (conforming to BS 4203-fire resistance: self extinguishing when tested in accordance to BSS 2782 Part 5/508A.)

#### Health & Safety Conformance

All Moderector personnel have been approved and issued with a FAS Safe Pass Accreditation. All personnel comply to all site safety requirements by the use of appropriate Protective Equipment and all are supplied with fire prevention equipment to conform to hot work permit safety requirements.
